20180116\_NDEP OU-3 HHRA Comments\_final.docx

Hi,

Attached is a set of general big picture comments that NDEP has put together concerning the OU-3 HHRA WP.

These comments also reflect discussion points made during last Thursday's call.

As suggested towards the end of Thursday's call, we anticipate that EPA will be submitting a summary of discussion points/next steps this week.

We further agree that an additional discussion (date tbd) is needed, before ARC can finalize the WP revisions.

Therefore, we recommend the current revision submittal deadline of 2/5/18 be temporarily set aside, until we know when the next discussion can be held, and provide clear direction to ARC regarding revisions.

We also think it is appropriate to set aside the current SLERA WP draft submittal deadline of 3/6/18, as you had indicated during last Thursday's call.

Thanks,

Jeryl
